The Just Us! Project

Conceived and designed by local children aged 6—11 years living on the Regents Park Estate. The project consisted of after school sessions at the H Pod (alongside a homework club) on Fridays. In addition there were workshops during the school holidays with several public performances taking place over a period from February —October 2011 culminating in two shows at the New Diorama Theatre on Thursday 27th October 2011. The project was funded by the West Euston Partnership with monies from British Land S106 Community Fund. Support was also provided by the Regents Park Safer Neighbourhood Team and the Wellcome Trust. .

We would like to give a special thanks to the Metropolitan Police who have recently agreed to provide some interim funding to enable the project to continue until February 2012 with a further public performance planned during half term..

We are currently seeking additional funds to continue the project after February 2012 from a variety of charitable bodies and local partner organizations. Perhaps you might consider becoming a sponsor?
